# 📘 Project Title

**Responsive Restaurant Website Using Bootstrap / Tailwind CSS / DaisyUI**

## 📌 Project Overview

- Build a responsive restaurant website

- Use **Bootstrap OR Tailwind CSS OR DaisyUI**

- Focus on UI layout, responsiveness, and components

## 🧭 Navigation Bar (All Pages)

- Tabs/links:
    - Home
    - About
    - Contact
- Buttons:
    - Login
    - Sign Up

## 📄 Pages Requirements

### 1️⃣ Home Page

- **Hero Section**
    - Restaurant name
    - Short description
    - Call-to-action button

- **Services Section**
    - At least 4 services

- **Main Menu Section**
    - Food items displayed as **cards**
    - Each card includes:
        - Image
        - Title
        - Description
        - Price

## 2️⃣ About Page

- One section only
- Restaurant story / mission
- Restaurant image

## 3️⃣ Contact Page

- One contact form with:
  - Name
  - Email
  - Phone
  - Message
- Submit button
- Proper labels & placeholders

## 👇 Footer (All Pages)

- Restaurant name
- Copyright
- Social media links

## ⭐ Bonus (Optional)

- Hover effects
- Dark mode
- Smooth scrolling
